EVENTS AT AVENUE

MANHATTAN MEETS MAYFAIR

Avenue restaurant and bar captures the buzz of the New York dining scene, nodding to its St James's roots with stunning art-focused interiors

HOSTING AN EVENT

We know how to throw a good party at Avenue.

Weddings, birthdays, engagement drinks or wine tastings, we have great style, a central London location in the heart of St James - and most importantly - an organised and enthusiastic team dedicated to making every detail of your event a success.

Originally designed by American architect Rick Mather in 1996, the grand, high-ceilinged restaurant and bar has been transformed by Russell Sage Studios to give the feel of a glamorous Manhattan loft space with eclectic modern art and design features, with a contemporary New American menu and wine list to match.

The restaurant and bar can accommodate up to 150 seated or 300 standing, with a private dining room available for groups up to 20.

GROUP DINING

The natural buzz and Manhattan-inspired glamour of Avenue's restaurant and bar makes it the perfect space for birthday dinners, team lunches and get-togethers.

We can accommodate groups from 12-30 in the main restaurant, with a private dining room available for tables from 8-20.

For smaller groups, our stunning polished white marble tasting table in the main restaurant can seat up to 8. Positioned next to the wine cellar and decanting station, it's a fantastic area for private wine dinners and bespoke tasting menus.

BAR EVENTS

Hosting a drinks party? The bar at Avenue is a destination in its own right for standing receptions and cocktail parties up to 20, serving up craft beers and classic cocktails inspired by the US Prohibition era, including a regularly changing list of 'An American in London' cocktails paying tribute to great American bartenders who moved to London during Prohibition.

The mirrored bar back displays an array of vintage US bourbons, a speciality of the bar, alongside a small but innovative list of New American bar snacks including pulled pork muffins and sliders.
