"What is a cocktail?"

Cock-tail is a stimulating liquor, composed of spirits of any kind, sugar, water, and bitters—it is vulgarly called sling, and is supposed to be an excellent electioneering potion, in as much as it renders the heart stout and bold, at the same time that it fuddles the head. It is said, also to be of great use to a democratic candidate: because a person, having swallowed a glass of it, is ready to swallow anything else.

The first definition of cocktail known to be an alcoholic beverage appeared in *The Balance and Columbian Repository* (Hudson, New York) May 13, 1806; Editor Harry Groswell.
